AIC : A 003/2026

Publication Date: 11-JUN-2026

Availability of the updated aeronautical obstacle datasets

The purpose of this AIC is to inform aeronautical users about the availability of updated aeronautical obstacle datasets, in accordance with AIP Hungary GEN 3.1.6. with particular attention to Data Originators (DAT providers).

HungaroControl Aeronautical Information Service hereby informs users that the latest electronic obstacle datasets are available for download in the Download section of the AIS website at the following link:

URL: <https://ais-en.hungarocontrol.hu/aip/>

The datasets are currently provided in XLSX format. The associated Data Product Specification, which details the data content as well as processing requirements, is also available in the same section.

With effect from the date of entry into force, the Hungarian obstacle database is made available free of charge via the HungaroControl AIS website. Updates to the data sets will be communicated to registered users by email notification. Users wishing to receive timely notifications are invited to subscribe to the service via the AIS website:
